

## Do you really want to spend your VC dollars on insourced IT?

... Powered by SaberSource™

"Superior support and maintenance services are only one click away with OnGuard Remote."

Acquiring capital to fund your operation  
And leveraging the dollars is your greatest challenge.  
SaberSource™ helps you unlock the value in VC funding  
For R&D, sales, marketing and BD functions  
With OnGuard™ Remote.

In today's soft economy there are many hard decisions—such as determining the best way to spend your precious VC dollars. Superior IT support and maintenance can positively impact productivity, the delivery of products and services, client satisfaction, and revenue growth, but that cost of insource IT is a burden—especially for emerging companies.

OnGuard Remote streamlines the IT infrastructure support and maintenance process, fills the gaps in coverage, drives workforce productivity, and allows you to unlock the value in VC funding to support mission-critical functions. There are no menus, long wait times, dropped calls, or redirections. OnGuard Remote resolves computer, server, and network issues via remote control SW.

OnGuard Remote offers several major features and benefits:

- Outsourced services at a fraction of insourced IT support costs
- Fixed pricing to eliminate unanticipated budget spikes
- 24x7x365 support to ensure around-the-clock business continuity
- Chat-initiated sessions to streamline access and eliminate menus
- Remote and proactive IT support to accelerate problem resolution
- Remote Plus Offering-Optional on-site support at an hourly rate

OnGuard is backed by engineers who are top in their field and constantly trained to remain technologically current, provide quick response times, and ensure personalized IT support for uninterrupted business operations.

Our strengths in help desk, server/network maintenance, consulting, and software development enable emerging companies to focus on growth while we manage and cost effectively optimize the performance of your IT infrastructure.

**Your IT infrastructure is the catalyst for future growth.** Every hour of every day, SaberSource proactively helps emerging companies stretch their VC dollars to control costs with our OnGuard Remote services. To arrange for a no-cost unconditional 30-day test drive, contact Sales at [sales@sabersource.com](mailto:sales@sabersource.com) or call 877-SABER91.
